2021

### Commentary

#### Financial overview

The increase of 6.7% (R476 million) in the Group's revenue to R7 544 million was largely as result of a 7.5% increase (R392 million) in poultry broiler sales. This was achieved through a combination of increased broiler sales volumes and a below inflationary increase in selling prices.

In spite of the increased poultry revenue, the Group's operating profit declined from R546 million (March 2020) to the current period's R345 million. Poultry price increases were not sufficient to cover the increases in feed and other production-related costs.

Net finance costs of R25 million, which includes finance charges on leased assets, were on the same level as for the comparative period. Interest received on surplus funds was however lower due to lower interest rates as well as lower average levels of surplus funds.

Capital expenditure for the current period at R121 million was down on the comparative period's R311 million following the completion of the planned expansion of the Festive processing plant in Olifantsfontein.

The net cash outflow of R154 million for the period includes the payment of the 2020 financial year's final dividend, which at R299 million was substantially higher than R165 million final dividend paid during the comparative period. The increased 2020 final dividend was as result of no interim dividend being declared and paid during the 2020 financial year.

The Group's balance sheet with net surplus cash of R386 million at 31 March 2021 remained strong, and the interim dividend now declared will be funded from available cash and funding resources.

### Operational overview

#### **Poultry Division**

Revenue for the division increased by 8.3% to R6.1 billion (March 2020: R5.6 billion), driven by an increase in revenue from higher broiler sales volumes and selling prices, together with an increase in the Group's breeding operations.

Broiler sales volumes were up by 3.5 % (7 772 tons), in line with a similar increase in broiler slaughter volumes. An additional 200 000 birds per week were processed through the new capacity created as part of the Group's poultry expansion project. Consumer demand has remained subdued; despite of the return of volumes to the Quick Service Restaurant sector following the softer lockdown measures which has somewhat assisted sales.

Broiler feed prices increased 17.0% on a Rand per ton basis due to high raw material costs for the reporting period, with broiler feed now making up approximately 69% of the cost of producing a broiler. Feed conversion efficiency improved further, slightly offsetting the higher feeding cost per broiler produced.

Operating profit for the Poultry division decreased by 78.6 % to R61 million (March 2020: R287 million), as broiler selling prices failed to cover the elevated feed prices. The operating profit margin decreased to 1.0 %, compared to a profit margin of 5.1 % achieved in the prior period.

Total poultry imports remained high, with the average monthly total poultry imports for the period under review equalling approximately 26% of local consumption, at an average of 39 705 tons per month.

### **Feed Division**

Revenue increased by 12.9% to R4.0 billion (March 2020: R3.5 billion) as a direct result of higher selling prices on the back of increases in raw material costs. SAFEX yellow maize prices increased to an average of R3 397 per ton for the period under review (March 2020: R2 703 per ton).

Feed sales volumes in the division decreased by 2.9% as external sales volumes dropped (8.9%), on a distressed livestock sector impacted by high feed costs. Internal sales volumes increased (1.6%) on higher broiler feed sales due to more broiler bird numbers placed into production.

The operating profit for this division increased by 9.0% to R265 million (March 2020: R243 million), with a slight decrease in the operating profit margin to 6.7% (March 2020: 6.9%). The division benefited from well controlled expenses and effective raw material cost recovery.

### Commentary (continued)

#### Other Africa Division

This division, consisting of both feed and poultry operations in three countries namely; Zambia, Mozambique and eSwatini, reported stable revenue at R238 million (March 2020: R239 million). Sales volumes increased by 6.5% on improved day old chick sales in Zambia. The operating profit increased to R19 million (March 2020: R16 million).

#### Outlook

Astral's view on the near-term prospects is heavily weighted to the impact of high raw material costs and a weak economy. The medium term raises a new threat with Highly Pathogenic Avian Influenza outbreaks being reported in the South African poultry industry.

- Unprecedented unemployment rate following the hard lockdown, and the resultant financial impact on businesses and discretionary disposable income.
- Very high local maize prices not seen since 2016, notwithstanding the expected good maize crop for 2021 estimated at 16.6 million tons which is at a high since the 2017 harvest.
- Sharp increases in global coarse grain prices on South American and US weather concerns, tight US ending stocks and high demand (China), has led to a rally on SAFEX maize resulting in continued high feed prices.
- Highly Pathogenic Avian Influenza poses a significant threat to the South African Poultry Industry, with early outbreaks experienced from April 2021.
- It is still unclear if higher import tariffs on frozen bone-in portions announced last year in March 2020, will discourage unfair trade (dumping).
- Production efficiency, product mix and volume growth opportunities following final commissioning of the Festive expansion project adding significant flexibility.
- Astral to maintain a resilient balance sheet.

Astral remains committed to its stated strategy. Astral applauds the commitment of all staff to their front line responsibilities during these trying times, and the company remains committed to providing uncompromised quality and service to our customers.

### Declaration of ordinary dividend No 39

The board has approved an interim dividend of 300 cents per ordinary share (gross) in respect of the six months ended 31 March 2021.

The dividend will be subject to Dividends Tax that was introduced with effect from 1 April 2012. In accordance with paragraphs 11.17 (a) (i) to (x) and 11.17 (c) of the JSE Listings Requirements the following information is disclosed:

- The dividend has been declared out of income reserves;
- The local Dividend Tax is 20% (twenty per centum);
- The gross local dividend is 300 cents per ordinary share for shareholders exempt from Dividend Tax;
- The net local dividend is 240 cents per ordinary share for shareholders liable to pay Dividend Tax;
- Astral Foods Limited has currently 42 922 235 ordinary shares in issue (which includes 4 088 577 treasury shares held by a subsidiary and 276 775 held in terms a forfeitable share scheme); and
- Astral Foods Limited's income tax reference number is 9125190711.

Shareholders are advised of the following dates in respect of the interim dividend:

| Last date to trade <i>cum</i> -dividend | Tuesday, 8 June 2021   |
|---|------------------------|
| Shares commence trading ex-dividend     | Wednesday, 9 June 2021 |
| Record date                             | Friday, 11 June 2021   |
| Payment of dividend                     | Monday, 14 June 2021   |

Share certificates may not be dematerialised or rematerialised between Wednesday, 9 June 2021 and Friday, 11 June 2021, both days inclusive.

On behalf of the board

T Eloff CE Schutte

Chairman Chief Executive Officer

Pretoria

### Notes

for the six months ended 31 March 2021

#### 1. Nature of business

Astral is a leading South African integrated poultry producer. Key activities consist of manufacturing of animal feeds, broiler genetics, production and sale of day-old chicks and hatching eggs, integrated breeder and broiler production operations, abattoirs and sale and distribution of various key poultry brands.

### 2. Basis of preparation

The condensed interim financial statements for the six months ended 31 March 2021 have been prepared in accordance with International Financial Reporting Standards ("IFRS"), IAS 34: Interim Financial Reporting, the Listings Requirements of the JSE Limited and the South African Companies Act (2008). These condensed interim financial statements have been prepared under the supervision of the financial director, DD Ferreira CA(SA).

The condensed interim financial statements have not been reviewed or audited by the group's auditors.

### 3. Accounting policies

The accounting policies applied in these condensed interim financial statements comply with IFRS and are consistent with those applied in the preparation of the group's annual financial statements for the year ended 30 September 2020.
